REASON FOR PRODUCT DISCONTINUATION

As part of a portfolio streamlining, we have decided to initiate the process of product discontinuation for the TS004E control card in order to continue to offer an efficient and clear product portfolio.

REPLACEMENT PRODUCT

The functional features of the TS004E control card can be found in the TS005 indexer module, it thus guarantees backward compatibility.

Terminal board and PCB holder (EH0004x) are not required for TS005 as it is a modular package.

There is no replacement product for the installation housings (EG0004x) in various versions. Alternatively, the functionally more extensive EF3 rotary table control with control cabinet
